PROFESSIONAL SUMMARY

Motivated student currently pursuing studies in the **Department of Education** while specializing in modern **Web Development**. Passionate about leveraging educational techniques alongside front-end web technologies including HTML, CSS, Styling systems, and JavaScript to build accessible, interactive, and user-friendly web applications.

EDUCATION

Bachelor / Diploma in Education

Department of Education

Enrolled / In Progress

Focusing on pedagogy, instructional methodology, educational psychology, and communication skills.

TECHNICAL TRAINING

Web Development Course

Front-End Engineering Program

Active Certification

Comprehensive practical training covering modern responsive layouts, web standards, and JavaScript scripting.

TECHNICAL & WEB SKILLS

HTML5 & Semantic Markup
Structuring clean, accessible, and standards-compliant web pages.

CSS3 & Advanced Styling
Flexbox, CSS Grid, custom layouts, animations, and responsive UI design.

JavaScript (JS)
Interactive client-side programming, DOM manipulation, and dynamic events.

Responsive Web Design
Ensuring mobile-friendly and adaptable layouts across all screen sizes.

KEY LEARNING PROJECTS

Interactive Educational Web Portal

Technologies: HTML, CSS Layouts, JavaScript

Designed and built a functional web interface for students using HTML5 structural elements and custom CSS styling. Implemented interactive quiz mechanisms using JavaScript.

Responsive Portfolio Website Template

Technologies: CSS Flexbox & Dynamic Styling

Developed a clean, multi-section portfolio template optimized for mobile, tablet, and desktop viewports with structured CSS layouts.

KEY COMPETENCIES
